

Join us in Washington
at this defining moment for the
Hispanic business community

Continental Breakfast Sponsorship Opportunity

The USHCC works on behalf of the Hispanic business community and for their federal and state legislative and regulatory interests. As the leading advocate for the public policy needs of the Hispanic business community, the USHCC's policy priorities cover a variety of topics such as small business programs, education, health care, trade, taxes, housing and many other critical issues. Through briefings and testimony before Congress, direct advocacy of the White House, federal agencies, and our strategic relationships with other organizations, the USHCC effectively promotes the needs of the Hispanic business owner. The USHCC's Legislative Summit is the leading legislative forum representing the interests and agenda of the Latino business community by bringing together Hispanic elected officials, Members of Congress, government leaders, influential Hispanic entrepreneurs and members of corporate America to discuss the most current and critical issues affecting the Hispanic business community.
